

**Incursiuni în imaginar 6/2015. Mit, basm, legendă. Mutații ale nucleelor narative/  
Incursions into the Imaginary 6/2015. Myth, Fairy Tale, Legend - Mutations of  
Narrative Nuclei**

**Mihaela BAL, TRANSFORMĂRI ALE BASMULUI FANTASTIC (Transformations of the Fantastic Fairy Tale)**

The premise of the work is to emphasize the aspects of the modern tales, in according with the modern way of life. Our essay is based on the research made years ago, in 1985, in the west side of the country (Banat) and the results were more than unexpected because our informers were country men who had daily contacts with industrial mediums. And, above all, all the informers found a great delectation in watching the tv programs, taking from that the stories which improved the real tales contents. One the one hand, we had to admit that is a kitsch phenomen, but, in the other hand, it was amazing that we can find the resources at the end of XX-th centuries, in the village. Keywords: tales, village, myth, vampire, story-taler
